Latin America’s involvement in African agricultural development.
The role of Argentina and Brazil

Frédéric Goulet
frederic.goulet@cirad.fr
Outline

• Type of cooperation offered by Brazil and Argentina in Africa

• Duality of agricultural development

• Ruptures & continuity with traditional cooperation
Agricultural duality in Br. and Arg. (1)

• Strong expansion of agribusiness since end of 90’s (soybean)
  – Public investment in public R&D, extension
  – Dynamic private sector: inputs, machinery, genetics, grain processing, etc.
Agricultural duality in Br. and Arg. (2)

- Public support to family farming and food security
  - Food acquisition, commercialization
  - Public and private technical support to family farming, peri-urban agriculture
  - Often linked to agroecological model & practices
International cooperation

• New attractive countries: experience, know-how, inputs, technologies
International cooperation

• New attractive countries: experience, know-how, inputs

• Existing institutions
  – ABC / Embrapa & FO-AR / INTA
International cooperation

• New attractive countries: experience, know-how, inputs

• Existing institutions
  – ABC – FO-AR / Embrapa - INTA

• Rhetoric of South-South Cooperation
  – detachment

• LAC, (Central )Asia, Africa
  – Favourable context for closer ties with Africa
    • Economic, political, cultural
Country where EMBRAPA has its Africa office (Ghana)

Countries where there is an EMBRAPA representative

- Cooperation projects and programs under implementation:
  - **Senegal**: Rice cultivation
  - **Mozambique**: Prosavana, Proalimentar and "Technical Research Platform"
  - **Mali-Benin-Burkina Faso**: "Coton 4"
  - **WAEMU**: feasibility studies for agro fuel sector valorization.

- Cooperation projects under study

- Area studied
Work “on (dual) demand”

• Responding to local dual demand
  – Demand for grain-cash crops technologies (proteins), intensive breeding
Main characteristics

• Work “on (dual) demand”
  – Demand for grain-cash crops technologies or intensive breeding
  – Demand on policies / technologies for family farming and FS

• ... but dominant vision based on transfer of successful recipes

• Technology-driven cooperation
  – Fuzzy frontier between public and private actors (case of machinery – hardawre)
  – Package including material and immaterial solutions (software) (ex: no-tillage)
La agricultura argentina, por el mundo
Exportación de conocimiento y tecnología al continente africano

Africaua mía

CASI COMO LAS NUESTRAS, LAFUENTE, EN UNA SOJA DE SEGUNDA SEMBRADA SOBRE TRIGO, PERO EN UN LOTE QUE ESTÁ UBICADO NADA MENOS QUE EN ZAMBIA!
Discussion

• New geopolitics of agriculture/agricultural research
• New geopolitics of development aid / cooperation
• Wider and more complex than a classical « development aid » relationship
• Is SSC really different?
• Agribusiness : landgrabbing, but after ?
Thank you very much
