

ERRATUM

Open Access

Erratum to: Molecular identification of *Anaplasma marginale* in two autochthonous South American wild species revealed an identical new genotype and its phylogenetic relationship with those of bovines

Eliana C. Guillemi^{1*}, Sofia de la Fourniere¹, Marcela Orozco², Jorge Peña Martínez³, Elena Correa⁴, Javier Fernandez⁴, Ludmila Lopez Arias¹, Martina Paoletta¹, Belkis Corona⁵, Valérie Pinarello⁶, Silvina E. Wilkowsky¹ and Marisa D. Farber¹

Erratum

After publication of our work [1], we realised that we have erroneously provided the GenBank submission ID instead of GenBank sequence accession numbers within the results section “Diagnosis and genotyping of *A. marginale*”: “Sequences from *msslα* and from the seven MLST genes were deposited in GenBank (submission ID: 1892187)”. The corrected sentence is as follows: “Sequences from *msslα* and from the seven MLST genes were deposited in the GenBank database under accession numbers KU879097–KU879112”.

We would like to apologise for the error and for any inconvenience this may have caused.

Submit your next manuscript to BioMed Central and we will help you at every step:

- We accept pre-submission inquiries
- Our selector tool helps you to find the most relevant journal
- We provide round the clock customer support
- Convenient online submission
- Thorough peer review
- Inclusion in PubMed and all major indexing services
- Maximum visibility for your research

Submit your manuscript at
