

Towards a harmonized data policies framework for Research Performing Organizations

Context

Following a special Flash Open Science call from the French National Research Agency (ANR), three French research performing organizations (RPOs) - IRD, CIRAD and INRAE - launched the BRIDGE project (2019-2022).

The Idea

The main output, addresses the research data policy and data governance in a partnership context, which ideally needs to satisfy shared criteria that can be read and understood by any scientific collectives or any research organization's support staff overseeing the laboratories.

Method

Output

RDA Data Policy IG - 14 criteria

- | | | | |
|--|--|---|--|
| 1. Definition of research data
2. Definition of exceptions
3. Embargoes
4. Supplementary materials
5. Data repositories
6. Data citation
7. Data licensing | 8. Researcher / author support
9. Data availability statements
10. Data formats and standards
11. Mandatory data sharing (specific papers)
12. Mandatory data sharing (all papers)
13. Research data and peer review
14. Data Management Plans | + | 15. Laws and Regulations
16. Scientific Integrity |
|--|--|---|--|

Bridge - 2 criteria
